SUMMARY

Software engineer who enjoys building web applications and solving problems with code. I love building robust Python applications and am always eager to learn new technologies. Let's create something amazing together!

EXPERIENCE

Software Development Engineering Intern | Yuga Yatra Retail (OPC) Pvt. Ltd. | Remote | July 2025 – Present

- Crafting next-generation web and mobile interfaces, blending creativity and functionality using Cursor AI
- Developing secure, high-performance authentication and data systems through Firebase Studio
- Transforming ideas into visually compelling designs that captivate users with Canva
- Leading freelance projects on Upwork, delivering custom solutions to clients worldwide

Python Developer Intern | Techciti Software Consulting Pvt. Ltd. | Remote | December 2024 – January 2025

- Developed Cold Storage Management System using Python and Django
- Built responsive interfaces with HTML, CSS, JavaScript
- Integrated SQLite3 database for effective data handling
- Utilized Python libraries including Pillow and Widget-tweaks

SKILLS

★ PYTHON ★ DJANGO ★ HTML ★ CSS ★ JAVASCRIPT ★ MYSQL ★ GIT&GIT-HUB ★ SQLITE3 ★ PHP

EDUCATION

Master of Computer Applications | Basaveshwar Engineering College

2023 – 2025 (Pursuing) | CGPA: 6.68 (1st Year)

Bachelor of Computer Applications | STC Arts and Commerce College, Banahatti

Graduated 2023 | Percentage: 66.57%

PROJECTS

Crop Recommendation System

GitHub: <https://github.com/kkraddi111/Crop-recommendation-system>

Stack: Python, Scikit-learn, Pandas, Numpy

- Suggests crops based on soil and climate data using ML algorithms

Calorie Tracker

GitHub: <https://github.com/kkraddi111/calorie-tracker>

Stack: Python, Web Development, SQLite3

- Created an app to track users' nutrition and fitness (South-Indian Dishes)

Cold Storage Management System || Internship Project

GitHub: <https://github.com/kkraddi111/Cold-Storage-Management-System>

Stack: Python, HTML, CSS, JS, SQLite3

- Built inventory tracking system with Django

Quiz Management System

GitHub: <https://github.com/kkraddi111/Quiz-Management-System>

Stack: PHP, HTML, CSS, JavaScript, MySQL

- Developed a complete quiz platform with user login and results

E-Learning Management System

GitHub: <https://github.com/kkraddi111/E-Learning-Management-System>

Stack: PHP, HTML, CSS, JavaScript, MySQL

- Created a course and student management platform
